### GROUP STRENGTH

Industrie Celtax has become synonymous with innovation, sustainability and performance in the areas of **tissue**, nonwovens and dispensing solutions for the Away From Home sectors. With a vertically integrated structure that encompasses every aspect from paper mills to converting lines, we offer **a range of specialised solutions** for bathroom facilities, industry, food preparation, Ho.Re.Ca., and the health, medical and beauty sectors.

**INDUSTRIE CELTEX**

### **VERTICAL INTEGRATION**

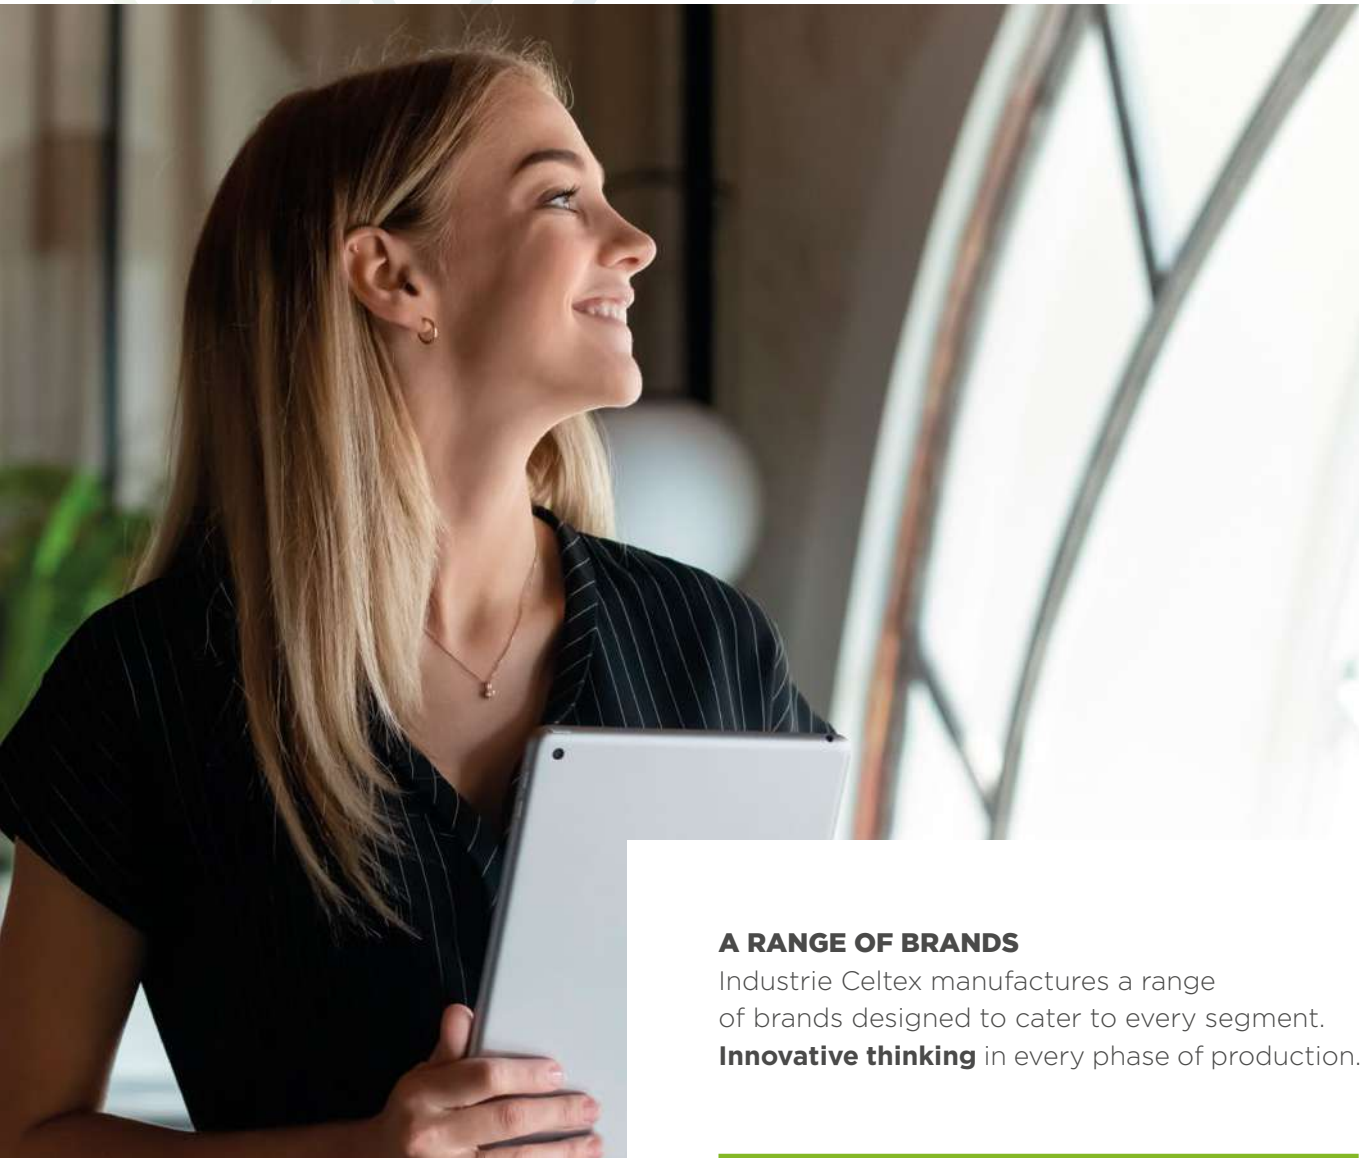

A strategic approach designed to ensure not only that we are in control of every part of the production process from paper mills to converting lines, but also that we have the flexibility to respond to changes in demand.

---

### **SOCIAL VALUES**

We are committed to improving the quality of life of our own people and those in the communities we work in, while delivering solutions to meet the needs of clients and end consumers and simultaneously creating solid relationships with employees and suppliers alike. Because **people are the secret to a successful company**.

---

### **A RANGE OF BRANDS**

Industrie Celtex manufactures a range of brands designed to cater to every segment. **Innovative thinking** in every phase of production.

---

## 2050 ROAD MAP GOALS ACHIEVED WELL IN ADVANCE

**-75%\***  
CO<sub>2</sub>  
emissions

**5900 m<sup>2</sup>**  
Surface area of  
photovoltaic panels  
installed

**55%**  
Self-generated  
electricity

\*Compared to conventional methods used by Industrie Celta.

## A SUSTAINABLE VISION

### **-75% CO<sub>2</sub> EMISSIONS\***

The production of Industrie Celtex has already achieved a significant reduction in CO<sub>2</sub> emissions.

---

### **3000 PHOTOVOLTAIC PANELS**

Part of a series of strategic choices designed to make our facilities increasingly self-sufficient when it comes to energy production and usage.

---

### **QUALITY, PERFORMANCE AND RELIABILITY**

We are committed to offering quality products that are effective, efficient and produced with consideration for people and the environment.

---

### **SUSTAINABLE INNOVATION**

Ongoing research to develop reliable, high-performing and waste-reducing solutions.

---

**ENVIRONMENTAL SUSTAINABILITY:  
TANGIBLE RESULTS AND  
INCREASINGLY AMBITIOUS GOALS**

# IDEAL SOLUTIONS FOR CLEANING AND HYGIENE DEMANDS

## QUALITY, PERFORMANCE AND RELIABILITY

Celtex's renowned quality standards can be found in a range of solutions designed for any context where **hygiene, cleanliness and practicality** are priorities.

These include not only more traditional disposable tissue products, but waste-saving soap and paper dispensing systems, advanced-technology cloths with superior cleaning and hygiene properties, and premium dispensers.

**Celtex: performance, efficiency and sustainability.**

# CELTEX: KEY STRENGTHS, VALUES AND REASON WHY

The Celtex brand represents **know-how, innovation and quality**. These pillars of our vision are the driving force behind our research and development endeavours which are aimed at addressing the **Away From Home** demands for reliability, efficiency and waste reduction. Celtex **comprehensive range of high-quality products** is produced from **premium raw materials** originating from a **controlled supply chain** and converted with the utmost attention to **reducing any environmental impact**.

## Research & development

A dedicated team committed to coming up with advanced solutions that meet the needs of an ever-evolving market.

## Sustainability

A business model that combines innovation with respect for humans and the environment.

## CERTIFICATIONS

EU Ecolabel:  
IT/004/010

### REDUCED ENVIRONMENTAL IMPACT THROUGHOUT ITS LIFE CYCLE

EU Ecolabel guarantees that products, throughout their entire life cycle, meet specific environmental performance criteria, common to all European Union countries.

### RESPECT FOR FORESTS

Products are manufactured using raw materials originating from controlled sources.

### Quality

High-quality products that meet the wide and varied needs of today's cleaning and hygiene panorama.

### Performance

Smart use of technology results in products that are ideal for every context.

### Design

Dispensing systems are conceived and designed by our in-house team to combine both aesthetics and functionality.

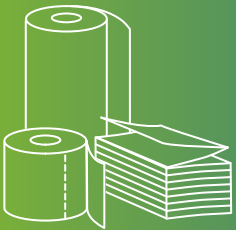

## PROJECTS

### Paper ranges

---

- CELTEX PRIME	12
- RACON PRIME AND SAVE PLUS	14
- E-TISSUE	16
- ABSOLUTE	18
- PROFIX	20

A complete range of high-quality products for every context.

# CELTEX PRIME, SOFT, HIGH-PERFORMANCE PURE PULP PAPER

The Celtex Prime range of premium **100% pure pulp** products is **exceptionally resistant, ultra-absorbent** and **delightfully soft**. Combining **quality, reliability and effectiveness**, it is the ideal solution for the **Away From Home sector** when it comes to cleaning.

**Extra-softness**

**High quality**

**Strength**

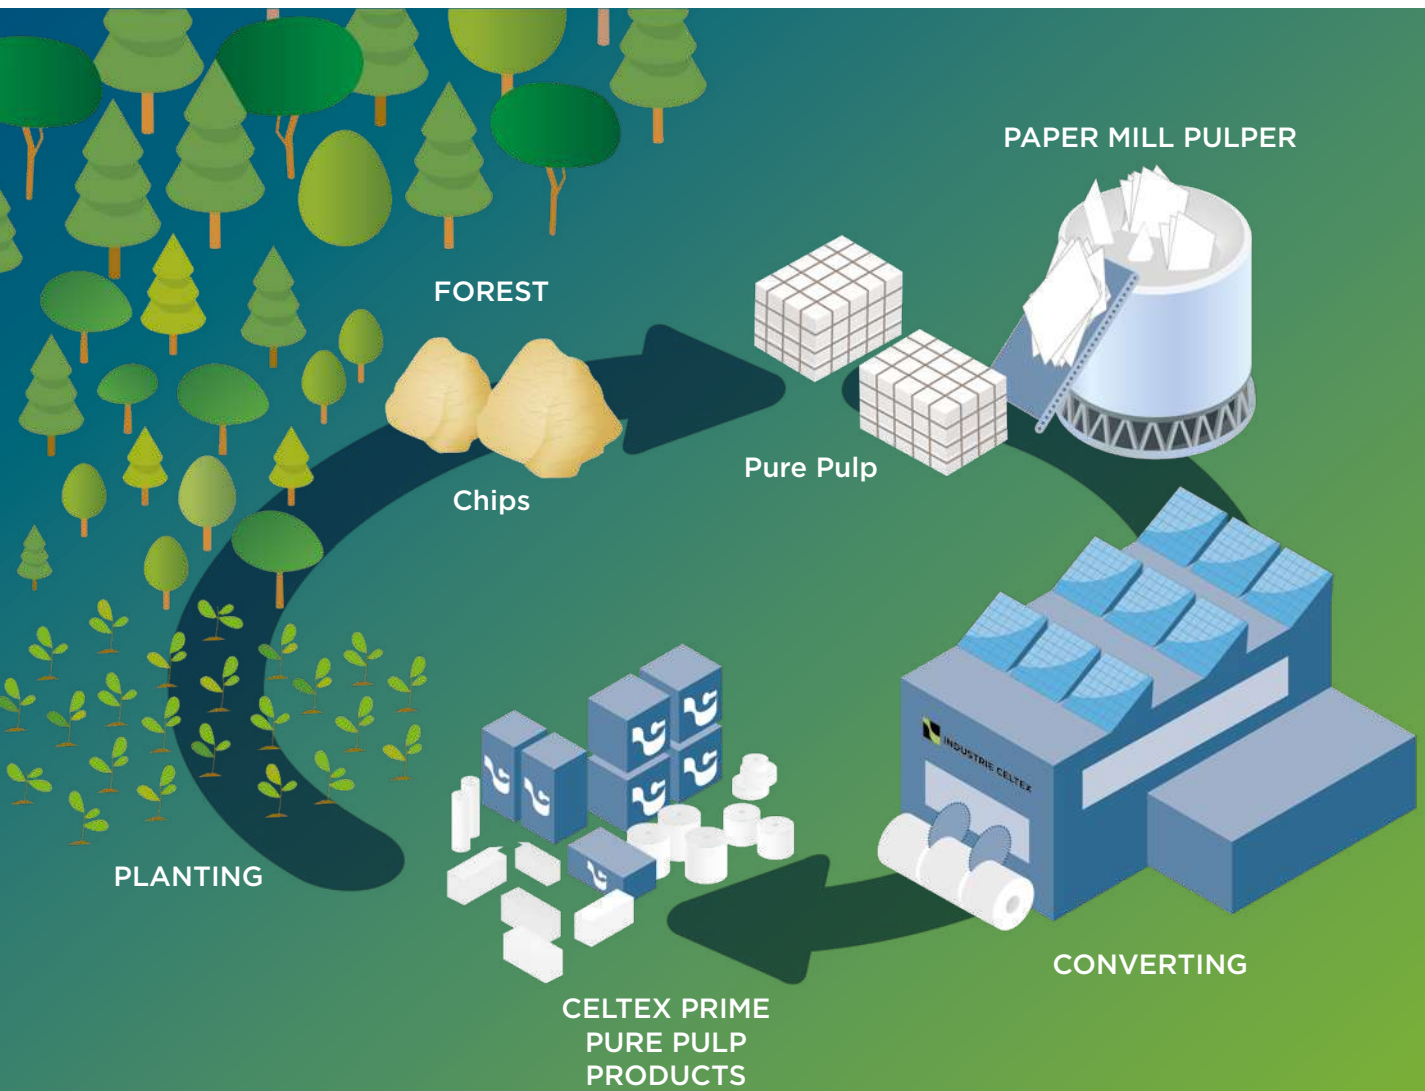

**Ultra absorbency**

The pulp used in Prime products is sourced from forests whose **chain of custody** is **certified** for the entire supply chain, thus meeting agreed European environmental, social and economic sustainability requirements.

It is **certified PEFC and EU Ecolabel**, both of which demonstrate the **reduced environmental impact** of a product's complete life cycle.

## PRIME PURE PULP PRODUCTION PROCESS

# RACON PRIME AND SAVE PLUS REGENERATED WHITE PAPER

**REGENERATED**  
New life to fibres

Made from 100% regenerated fibres, the Racon Prime and Save Plus ranges feature a 75% white colour grading and are free from bleaching or brightening agents in the paper mill manufacturing process, standing out in the market for their brightness.

Resulting from a **circular and energy-saving\* production process that reuses pure pulp offcuts** created in both the mill and converting stages, **Racon Prime** and **Save Plus** are the perfect example of our commitment to reducing environmental impact.

**High  
quality**

**Increased  
perceived value**

**Eco-friendly  
innovation**

**Cost-efficient**

**racon**  
prime

**save  
plus**

**LESS ENERGY**

20% less energy used in the production process\*

\*Compared to pure pulp equivalent of Industrie Celtex

**FREE FROM OPTICAL BRIGHTENERS**

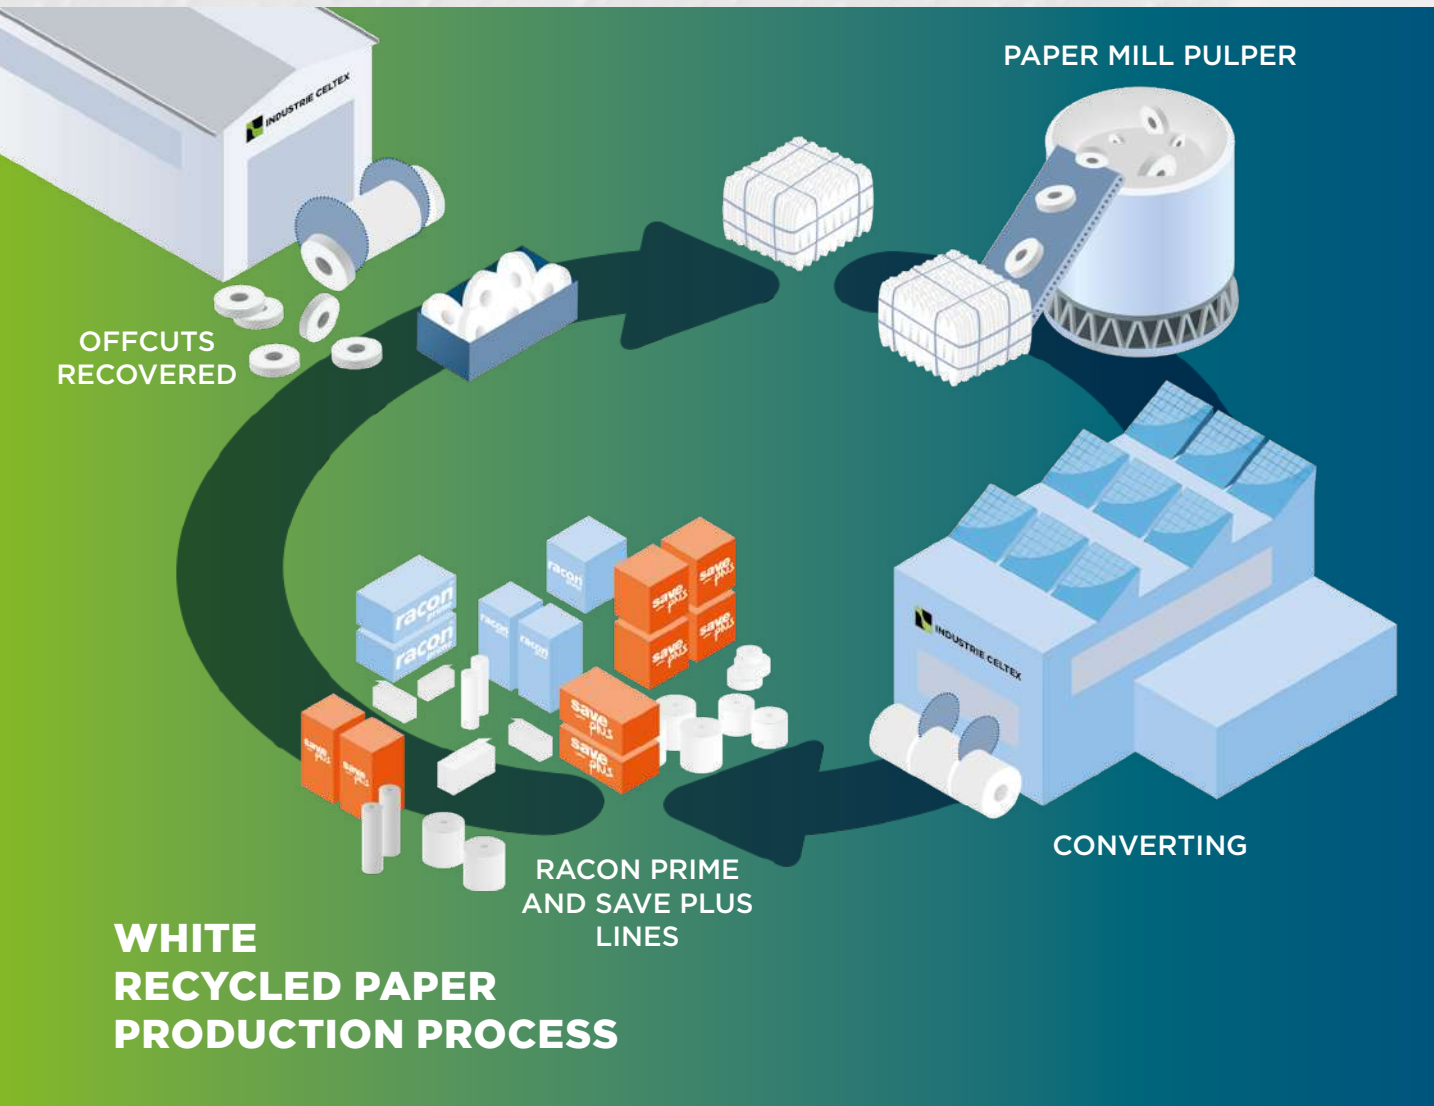

No optical brighteners added\*\*

\*\*Intentionally during our production process

**PLEASANT SMELLING**

Non-invasive odour, even when wet

**WHITE RECYCLED PAPER PRODUCTION PROCESS**

The Save Plus and Racon Prime ranges are certified EU Ecolabel and PEFC. They also comply with the European Green Public Procurement (GPP), which aims to define requirements to encourage green procurement by public administrations, thus reducing their environmental impact. Compliant with the Minimum Environmental Criteria, mandatory in Italy for cleaning services for public and healthcare environments. Clean recycled production, respecting both man and nature.

# E-TISSUE: “FIRST-GEN” RECYCLED PAPER

The E-Tissue line of sand-coloured recycled paper is made **entirely from pre-consumer materials**. This innovative paper strikes the perfect balance between quality performance and **environmental care**, for a product that delivers:

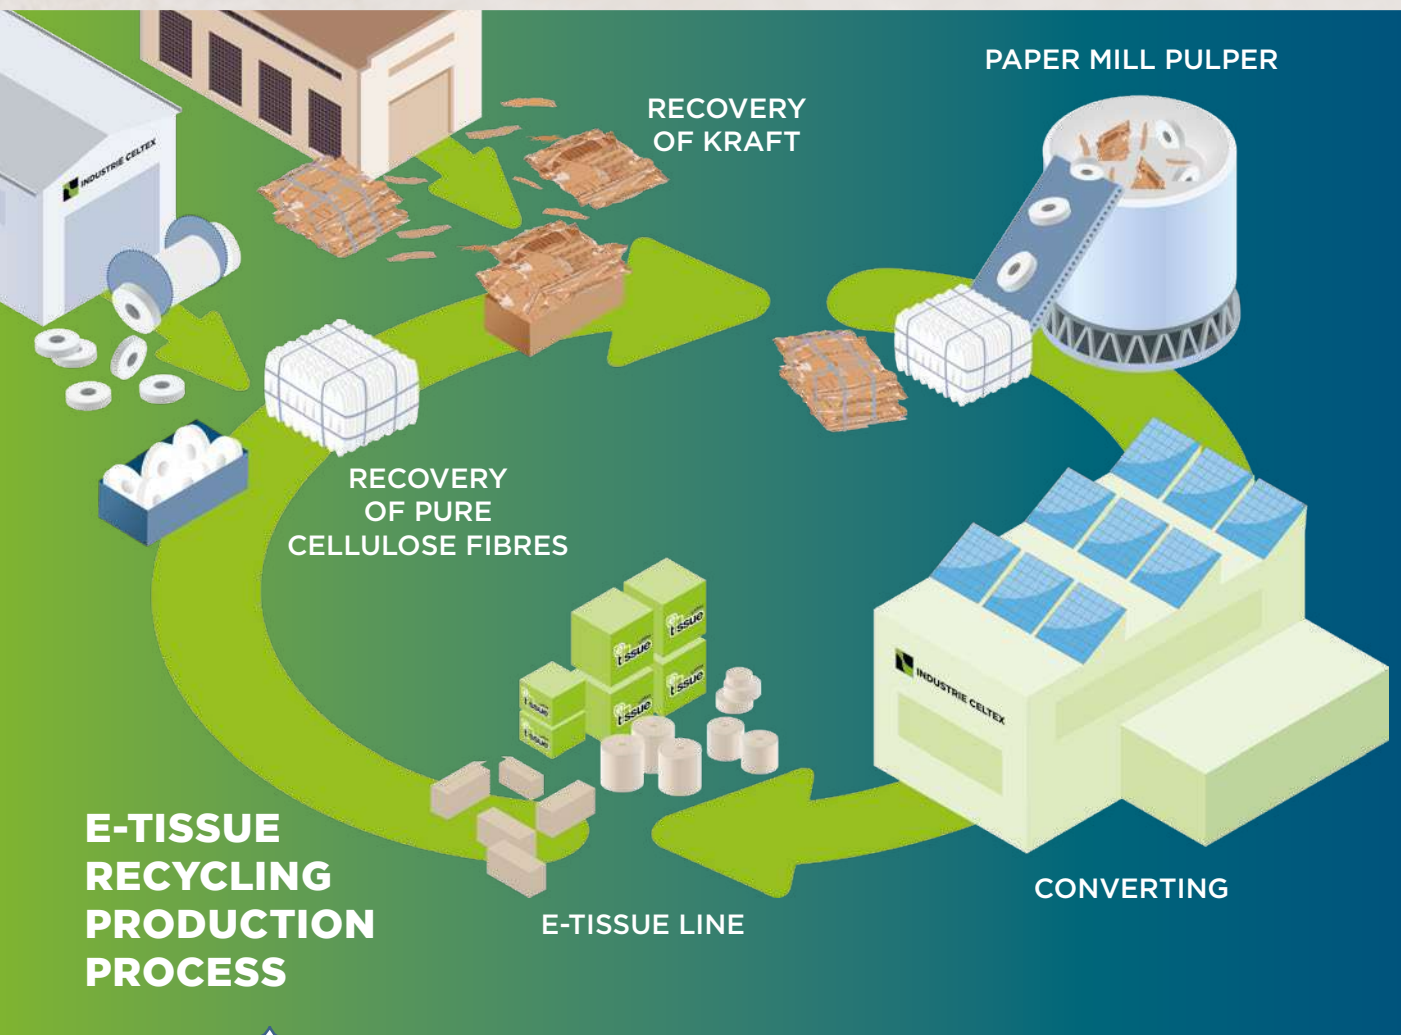

**Absorption power**

**A pleasant odour, even when wet**

**Strength, even when wet**

RECYCLED FROM **PAPER**  
THAT HAS **NEVER BEEN USED**

PAPER NOT COMING FROM  
POST-CONSUMER AND/OR  
MUNICIPAL WASTE

**100% repurposed fibres, zero fibre waste**

**Natural colour, no added dyes and optical brighteners\***

**20% less water used during production\*\***

# e-tissue

E-Tissue recycled paper reuses **Kraft and pure pulp offcuts** that have been recovered from the converting line.

A shining example of the **circular economy**, the productive cycle even incorporates left over material from the E-Tissue manufacturing process. With its **soft colour** resulting from its **sand-coloured Kraft origins**, E-Tissue paper is as strong as the raw material it comes from. It is also certified **EU Ecolabel** and **PEFC**.

## Reduced environmental impact throughout its life cycle

EU Ecolabel guarantees that products, throughout their entire life cycle, meet specific environmental performance criteria, common to all European Union countries.

## Respect for forests

The PEFC logo on our products ensures that our paper comes from recycled and controlled sources.

## Delicate on the skin

Laboratory tests show that this product is delicate on the skin.

## Contact with food

Suitable for food contact. In Italy suitable for contact with dry food, according to Italian Decree D.M. 21/03/1973 and subsequent amendments.

The E-Tissue range complies with Italian CAM (Minimum Environmental Criteria) standards regarding cleaning and sanitation services for environments destined for public and healthcare usage, ensuring all products meet the required procurement standards.

**Find out more**

\*No optical brighteners are intentionally added during our production process.

\*\*Compared to pure pulp equivalent of Industrie Celtex.

# ABSOLUTE THE COMPACT PAPER RANGE THAT MAKES THE MOST OF SPACE, TIME AND BUDGET

The Celtex Absolute paper line takes **efficiency and sustainability** to the next level. With its **ultra-compact format** and increased product quantity, the result is smarter delivery, reduced staff costs due to fewer refills, and less storage space required.

**In summary, efficiency translated into cost savings.**

## ABSOLUTE EFFICIENCY

The environment also wins with Celtex Absolute through decreased CO<sub>2</sub> emissions, halved packaging materials, and less product wastage to be processed, compared to standard Celtex products.

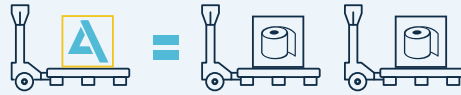

Flushability tests carried out as per Regulation AFNOR: NF Q 34-020:1998, in an external laboratory.

**THE SAVINGS CHAIN**

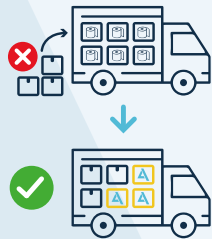

**OPTIMISED PALLET SPACE**

A pallet of Absolute is the equivalent of two pallets of standard Celtex products

**WHOLESALE BENEFITS**

**TRANSPORT COSTS**

Reduced transport costs and space

**OPTIMISED WAREHOUSE SPACE**

Half the warehousing space required

**DELIVERY COSTS**

Delivery to customers more efficient in terms of space and value

**CUSTOMER BENEFITS**

**LONGER-LASTING PRODUCT**

Because each **Absolute** item contains **more sheets of paper**, the product lasts much longer, compared to standard Celtex products

**REFILL TIME AND COSTS**

**Longer intervals between refills** means freeing up staff for other tasks

**THE SUSTAINABILITY CHAIN**

**- 50%\***  
PACKAGING

**- 50%\***  
TRANSPORT

**- 50%\***  
CO<sub>2</sub> EMISSIONS

**SPACE + TIME + MONEY = CONCRETE BENEFITS**

\*Data derived from internal calculations.

# PROFIX: HIGH-LEVEL SOLUTIONS FOR AWAY FROM HOME SECTORS

Cloths in roll and folded formats for use in specialist sectors.

**Special  
lint-free  
composition**

**Strong enough  
for use with  
solvents**

**Just as  
effective dry  
or wet**

## SPECIAL FORMULA DESIGNED FOR SPECIFIC REQUIREMENTS

Available in a selection of weights and formats and in a choice of smooth or apertured finish, the Profix range of products is ultra-absorbent and resistant yet soft, making it a versatile, smart solution.

**AUTOMOTIVE  
WORKSHOPS**

**FOOD  
PREPARATION**

**MEDICAL**

**HEALTH  
& BEAUTY**

**CLEANING**

*For further information on the Profix range, please contact your Celta sales representative.*

## LINT-FREE, MAXIMUM ABSORBENCY

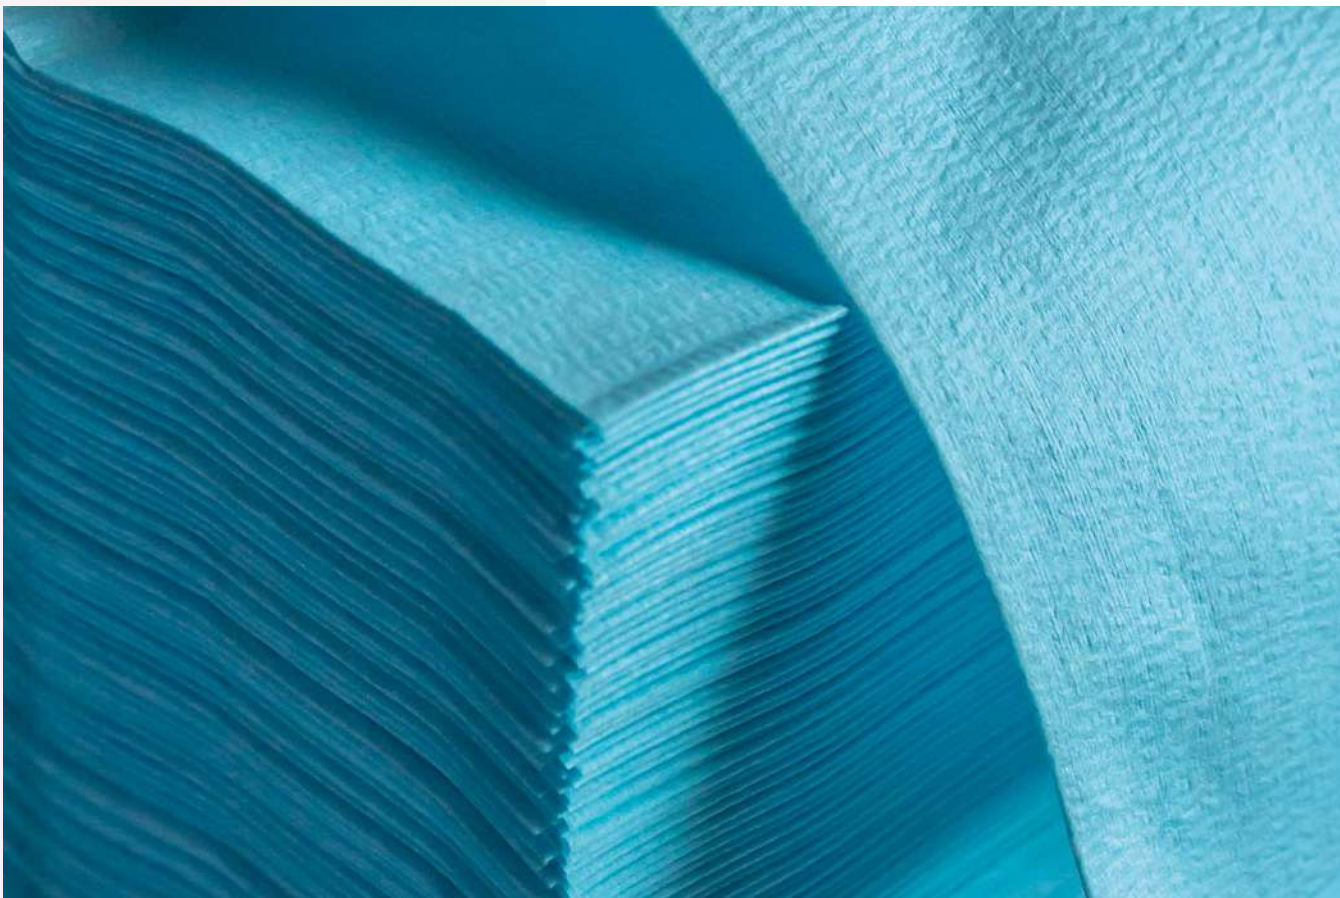

The Profix range of rolls and cloths is designed to meet the needs of a wide variety of work contexts.

With their exceptionally **fast absorbency capacity** and great resistance, Profix products do not tear easily and are strong enough to absorb oil and **withstand wear heavy usage**. The **lint-free** feature also makes them ideal for polishing and finishing operations.

As demonstrated in **tests carried out by German laboratory ISEGA\***, Profix products are suitable for **contact with foodstuffs**.

**Extra  
absorbent**

*\*ISEGA is a leading German laboratory in the field of certifying that paper products conform with standards set by BfR (Bundesinstitut für Risikobewertung), a German state risk-assessment institute which publishes recommendations such as BfR XXXVI - Paper and board for food contact.*

## PROJECTS

Megamini Dispensing Systems	24
Ubi Maior Dispensers	38

Whatever the requirement, Celtex has the ideal solution with a range of smart systems combining design and quality.

**MEGAMINI**

# MEGAMINI SYSTEMS: DESIGN, PERFORMANCE AND REDUCED CONSUMPTION IN ONE

These 100% **Made in Italy** dispensers are inspired by the sleek shapes and volumes of the Rationalism school of design.

The result is a contemporary aesthetic and an exceptional level of **functionality** derived from the design's **linear form**.

Available in a choice of white or black, Megamini dispensers double up as an eye-pleasing bathroom accessory.

**Efficiency, maximum hygiene and waste reduction** come together with exclusive Made in Italy design to create solutions that respect the environment and lower costs.

What's more, clients understand and enjoy the advantages of Megamini products, leading to **loyalty** and long-term sales.

**Control over  
product dispensed**

**Reduced  
consumption**

**Guaranteed  
quality**

**Respect for the  
environment**

**i Find out  
more**

# control

## MEGA PERFORMANCE MINIMAL WASTAGE

The Celtex Megamini E-Control range features advanced electronic technology with a **no-touch** mechanism that avoids cross-contamination and delivers **maximum bathroom hygiene**. Thanks to **electronic sensors** that are triggered by hand movement, users only come into **contact with the product dispensed for their own use** without having to touch the dispenser at all. In short, a 100% hands-free experience.

		
<p><b>Maximum hygiene</b></p>	<p><b>No-touch dispensing</b></p>	<p><b>Rechargeable battery</b></p>

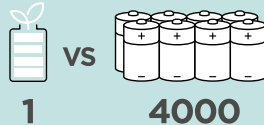

### ECO NEWS

Rechargeable battery-operated

For **increased protection**, each roll is fitted with a microchip which is assigned to the dispenser.

Once the roll is finished, the microchip no longer functions. The dispenser will only work when a new microchipped roll is inserted.

# FORMATIC

## CONTROLLED MANUAL DISPENSING ACTION

Megamini Formatic is a manual hand towel roll dispensing solution with an **automatic cutting mechanism** that delivers single sheets in an easy, efficient action.

Control over product dispensed

Protected roll

Ideal for frequent use

Reduced consumption

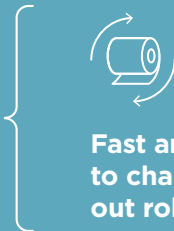

Quality guaranteed

Premium product

## HAND TOWELS

- ▶ Ideal for high-traffic contexts
- ▶ Manual dispenser with automatic cutting mechanism
- ▶ Hygienic, as users only touch their own paper

Fast and easy to change out rolls

Monitored usage

Up to 1250 hand towels

**STRONG  
ON QUALITY,  
SMART  
ON QUANTITY**

**FOAM SOAP**

- ▶ Every dosage is the same
- ▶ Semi-transparent window makes it easy to check soap level
- ▶ The cartridge automatically collapses once empty

**Less waste**

**Optimised consumption**

**Up to 2250 dosages**

# REVOLVER

## THE REVOLUTIONARY REVOLVER + MAGNUM TOILET PAPER SOLUTION

The Revolver dispenser holds **three rolls of toilet paper** which are anchored by a central cog. When a roll is finished, the force of gravity rotates the cog and **positions the next roll in its place**, ready to be used.

Zero wastage

**300**  
Metres

Greater capacity

Protected rolls

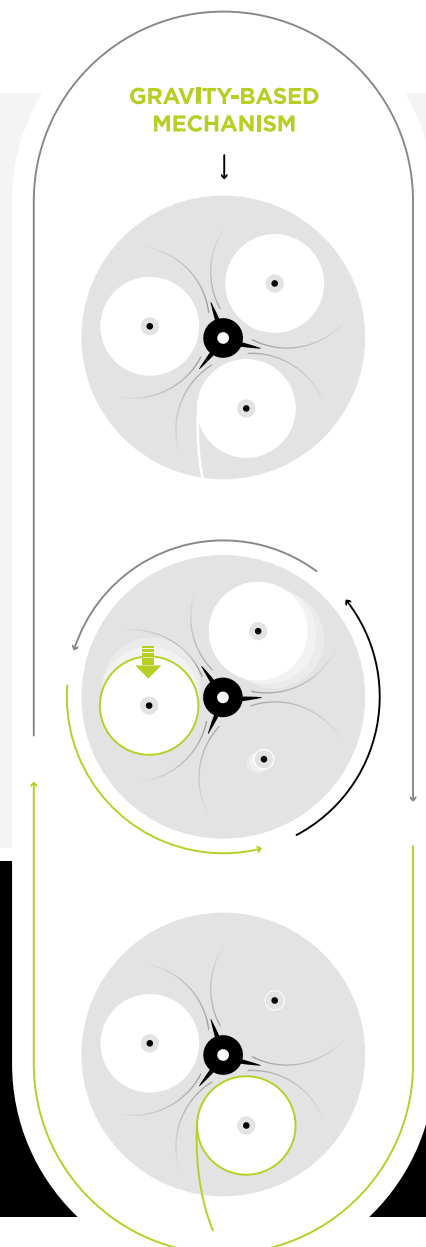

Paper dissolves in 9 seconds\*

Guaranteed quality

Paper always available

### Simple but brilliant

This ingenious design combines with Magnum premium pure pulp paper to create a unique patented dispensing system.

\*Flushability tests carried out as per Regulation AFNOR: NF Q 34-020:1998, in an external laboratory.

**i** Find out more

MEGAMINI

# EASY-PULL

## THE COMPACT CENTRE-FEED TOILET PAPER DISPENSER

The compact Megamini Easy-Pull dispenser may look sleek and slimline, but its clever design houses a surprisingly large oval **centre-feed toilet paper roll** that optimises space.

Easy extraction

Protected roll

Guaranteed quality

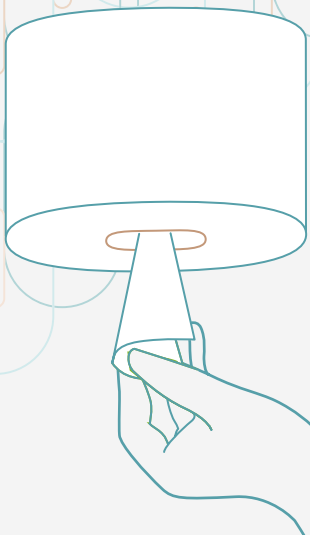

Reduced consumption

### MIDI EASY-PULL SYSTEM

- ▶ Compact and streamlined design that optimises space
- ▶ Dispenses paper vertically, avoiding blockages
- ▶ Sheet-by-sheet dispensing
- ▶ Reduced consumption
- ▶ Toilet paper dissolves in 9 seconds\*

\*Flushability tests carried out as per Regulation AFNOR: NF Q 34-020:1998, in an external laboratory.

### Sheet-by-sheet

With just one sheet dispensed at a time, there's **less wastage** and because users only touch their own paper, it's a more hygienic solution. The advanced dispensing mechanism and the **vertical position of the roll** combine to work with gravity for effortless, **jam-free extraction**.

COMPACT DESIGN,  
STANDARD SHAPE.  
**EYE-PLEASINGLY  
BALANCED.**

# OMNIALABOR

## THE TRADITIONAL ROLL GIVES WAY TO THE FOLDED PAPER

**Omnia Labor** dispensers are the ideal solution for workplace environments such as **kitchens or workshops** where **flexibility and speed** go hand in hand with rigorous **safety and hygiene** requirements. Whether **fixed to the wall** or in a **portable freestanding version**, it is designed to meet the daily needs of a busy working environment without taking up valuable surface space.

### OMNIA LABOR: taking hygiene to the next level

The outlet of the white Omnia Labor dispenser has an **antimicrobial treatment** that makes it ideal for any context where rigorous hygiene standards are in place: not only **restaurants and food preparation areas** but also **hospitals and medical centres**.

Easy to use

More hygienic

Outstanding functionality

Ultra-versatile

Dispenser meets HACCP standards

### Multi-purpose paper towel system ensures:

- ✓ **No more** twisted paper slowing down work
- ✓ **No more** running out of paper at the wrong moment
- ✓ **No more** wads of excess paper
- ✓ **No more** paper stuck in the dispenser
- ✓ **No more** loose paper
- ✓ **No more** space-hogging dispensers

**i** Find out more

# UBI MAIOR DISPENSERS: QUALITY, STYLE AND ELEGANCE

The Celtex Ubi Maior range of **high-end bathroom accessories** combines high-quality materials and finishes to add a unique touch to any space.

A premium selection designed to meet not only the **highest quality standards** but also the needs of a more discerning clientele who appreciate fine materials such as **brushed steel** and **Carrara white marble**, sourced from the very same quarries as the stone used by Michelangelo for his extraordinary sculptures.

UBIMAIOR

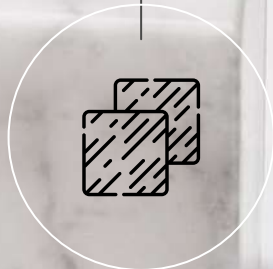

### THE TIMELESS BEAUTY OF MARBLE

Marble, a symbol of eternal elegance and majesty.

### MATERIALS THAT GO BEYOND THE EVERYDAY

Available in a choice of white Carrara or black Marquinia Spanish marble, the Ubi Maior dispensers bring an unconventional, contemporary twist to traditional Italian style.

### THE PURITY OF STAINLESS STEEL

A modern approach to bathroom décor, featuring one of the most durable materials in existence.

### ANTI-FINGERPRINT TREATMENT

Minimises fingerprint smears and marks, keeping the bathroom area tidy and clean.

Ubi Maior **stainless steel** dispensers are **UV rays-, steam- and moisture-resistant**. They also feature a special **anti-fingerprint** treatment that minimises unsightly fingerprint smears and marks, **keeping the bathroom area neat and tidy**.

## TOILET PAPER

Toilet paper in small rolls	44
Individually wrapped toilet rolls	47
Maxi and Mini Jumbo toilet rolls	50
Folded toilet paper	52

**High-quality, fast-dissolving**  
toilet paper for a better all-round  
experience.

**FAST  
- DISSOLVING -  
TOILET PAPER**

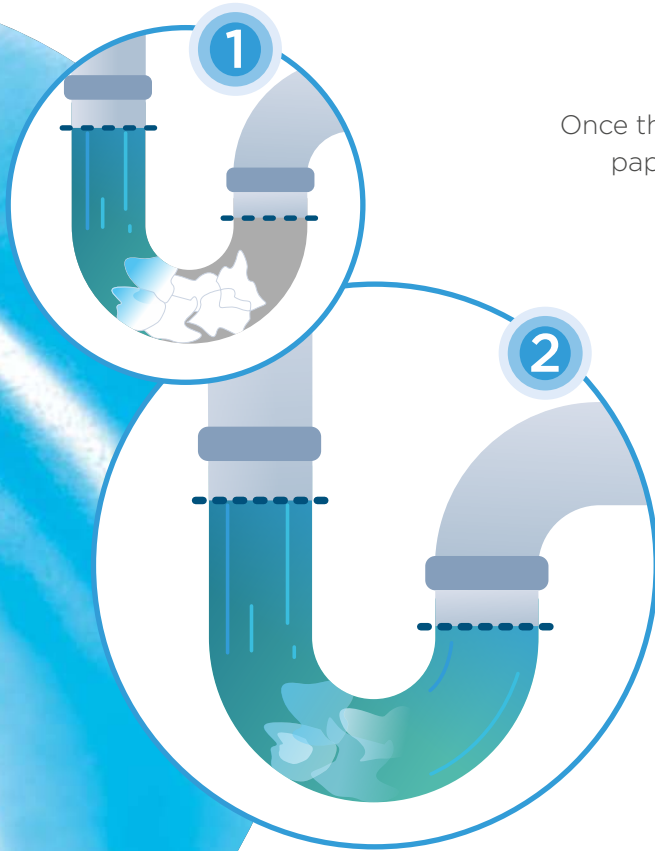

## **FLUTECH TECHNOLOGY: THE PREVENTIVE CHOICE FOR CLOGGING PROBLEMS**

**Flutech®** is an exclusive Industrie Celtex-patented chemical-free technology that enables toilet paper to **rapidly dissolve in water in just 9 or 15 seconds**, depending on the type of paper. Flutech® puts an end to unpleasant blockages, frequent plumbing costs and the disappointing “out of order” sign.

The range includes **Hydrosol paper hand towels** which, if mistakenly thrown down the toilet, dissolve in 9 seconds once flushed.

## FAST-ACTING, BLOCKAGE-FREE.

Once the toilet is flushed, Celtex **pure pulp** toilet paper dissolves in **9 seconds**, while **recycled** equivalents take **15 seconds\***.

\*Flushability tests carried out as per Regulation AFNOR: NF Q 34-020:1998, in an external laboratory.

### THE NATURAL, ECOLOGIC AND CERTIFIED SOLUTION

## SAFE, BLOCKAGE-FREE PIPES

Ideal for areas with plumbing challenges such as **winding pipes, minimal incline** or **septic tanks**, and in any premium or high-traffic context where **efficient flushing and high hygiene standards** must be assured.

### ENZYME-FREE

Quality paper with no enzymes

### NO BLOCKAGES, NO CHEMICAL ADDITIVES

No need to use chemical products to unclog blocked toilets

### REDUCED PLUMBING COSTS

Problem-free pipes

### IDEAL FOR:

### HAPPY CLIENTELE

No "Out of Order" signs.

## HAND TOWELS

Folded hand towels	58
Centre-feed hand towel rolls	64
Hand towel rolls	68

**Strong, absorbent and elegant** solutions designed to appeal to end consumers.

# CELTEX HAND TOWELS, THE INTELLIGENT HYGIENIC CHOICE

Ensuring hygiene and safety of consumers and their surroundings is an absolute necessity of society.

PAPER TOWELS  
ARE THE MOST  
HYGIENIC SOLUTION  
ON THE MARKET

80%

Almost 80% of illnesses are transmitted by the hands.

Source: ETS <https://europeantissue.com>

A vast body of medical and scientific evidence demonstrates that compared to air drying, paper towels are **more hygienic** and have an important role to play in **reducing risk of infection**, thereby safeguarding people's health and wellbeing.

**INFORMATION  
IS KEY WHEN  
IT COMES TO  
HYGIENE**

## WHAT RESEARCH SAYS ABOUT THE ROLE OF PAPER

54% of people surveyed think paper towels are the **most hygienic way to dry hands\***.

38.5% of people surveyed are using **paper towels more often** since Covid-19\*.

\*<https://europeantissue.com>

### PAPER TOWELS: A GUARANTEE OF BETTER HYGIENE

The level of surface contamination resulting from hands dried by an air dryer is **10 times greater\*\***.

\*\*"From the hospital toilet to the ward: A pilot study on microbe dispersal to multiple hospital surfaces following hand drying using a jet air dryer versus paper towels" published online by Cambridge University Press, 17<sup>th</sup> March 2021 - Ines B. Moura, Duncan Ewin and Mark H. Wilcox

	DISPOSABLE PAPER TOWELS <sup>1</sup>	HOT AIR DRYERS <sup>2</sup>	JET AIR DRYERS <sup>3</sup>
<b>BACTERIA DEPOSITED ON FINGERS</b>	<b>-76%</b>	<b>+194%</b>	<b>+42%</b>
<b>BACTERIA DEPOSITED ON SURFACES</b> Compared to paper towel dispensers.	<b>0</b>	<b>2.5</b> times more	<b>1,000</b> times more
<b>VIRAL PARTICLES RELEASED INTO THE AIR</b> Average quantity of particles released at various distances after 15 minutes.	<b>15</b>	<b>104</b>	<b>3,005</b>

1. Study carried out by the University of Westminster (Keith Redway) - 2008    2. Study carried out by EUROFINS/INLAB - 2012  
 3. Study carried out by the University of Westminster (Keith Redway) - 2016

The World Health Organisation also recommends using disposable paper towels to dry hands.

### A GREAT CHOICE ALSO FOR THE ENVIRONMENT

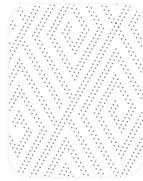

These products not only meet the highest hygiene standards but are formulated to respect the environment.

## ROLLS

Folded sheets	78
Heavy-duty rolls	80
Multi-purpose rolls	86

The **smart, practical solution** for cleaning and wiping up liquids.

# CELTEX ROLLS

Celtex paper rolls are designed to meet the wide and varying **cleaning and hygiene** demands of the Away From Home sector.

## ADVANTAGES

### EXTRA ABSORBENCY

Celtex special SATIN® embossing increases absorbency, making every sheet more wet-resistant so that it can be reused, resulting in cost savings and less waste.

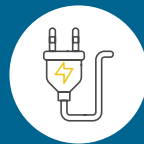

### HIGH RESISTANCE

Exceptionally resistant paper that is ideal for cleaning all sorts of surfaces in a wide range of situations, from removing light marks to more stubborn stains.

## VERSATILE HYGIENE AND CLEANING SOLUTIONS FOR ANY SITUATION

Suitable for a range of contexts, from **cleaning companies** to **industrial mechanic factories**, from **garages and workshops** to **professional kitchens**. Compatible with industrial roll dispensers and portable roll holders for easy transport and paper dispensing.

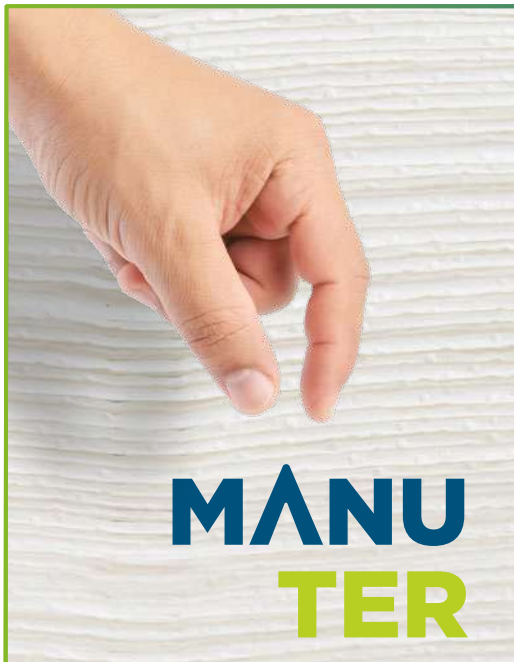

### CERTIFICATIONS

Celtex rolls are certified EU Ecolabel and PEFC.

EU Ecolabel:  
IT/004/010

THE **VERSATILITY** OF A ROLL  
IN **PRACTICAL** FOLDED SHEETS

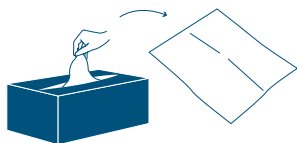

Manuter **folded sheets** are a practical, **maxi-format** solution that ensures you always have **instant access** to paper.  
The **ultra-compact, smart pack** makes it easy to **extract one sheet at a time**, keeping unused paper protected, reducing the risk of cross-contamination and minimising waste.  
The **large sheet size** makes Manuter ideal for a wide range of uses.

**Manuter**, the simple solution that's always close at hand.

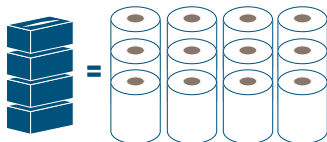

**REDUCED CONSUMPTION**

Easy extraction,  
one sheet at a time.

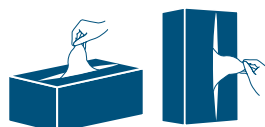

**SPACE SAVING**

More product, less space.  
Reduced storage challenges.

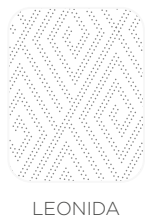

**PRACTICAL AND VERSATILE**

Can be wall-mounted, placed  
on a flat surface or moved  
around as needed.

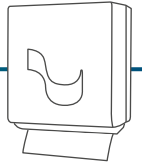

**Manuter**

**Professional quality for everyday use**

**Celtex multi-purpose rolls** bring the elevated quality and performance of pure pulp paper designed for the **Away From Home** sector to the home.

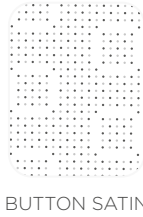

The four products in the range are individually wrapped and can be sold through Cash&Carry channels. Available in 2-ply and 3-ply, they are **extremely tough and absorbent**, and are suitable for **contact with food**.

What's more, our new **Button Satin**<sup>®</sup> embossing not only improves absorbency and resistance, but also ensures every sheet is soft to the touch and appealing to the eye.

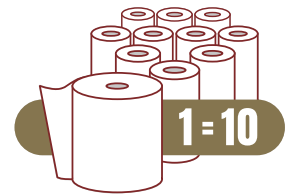

Maxima

 C08690N

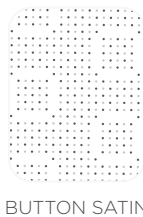

The **top of the range** in this selection is **Maxima**, a **maxi-format 3-ply** multi-purpose paper that is **taller** than the average roll found in retail outlets, **ultra-absorbent** and **pleasingly soft**. With its optimal quality and resistance, including its capacity to absorb liquids, meaning it can be wrung out and reused, Maxima also **reduces paper use and wastage**.

## MEDICAL ROLLS, CLOTHS AND BIBS

Medical rolls	92
Beauty towels	96
Bibs	99

Solutions designed to deliver **superior hygiene** and **resistance**.

# CELTEX MEDICAL ROLLS

Celtex medical rolls are **high-quality products** designed for a **wide range of uses across the beauty and medical sectors**, where hygiene and personal care are an absolute priority for everyone involved.

## MEDICAL FACILITIES

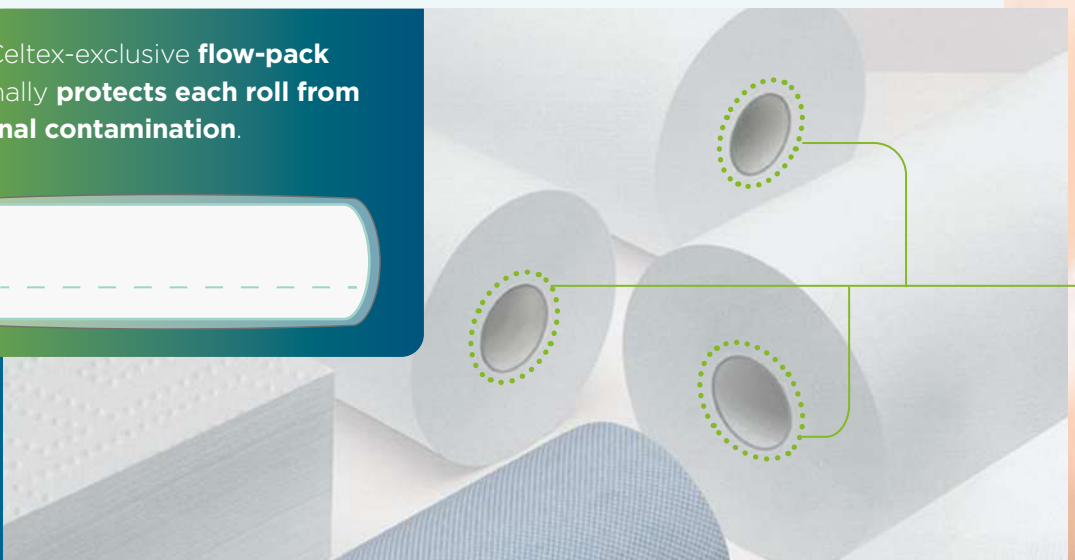

With their enhanced micro-embossing that ensures **greater adherence and less slippage**, and **CE marking** that attests to their capacity to **prevent cross-contamination**, Celtex couch rolls are the ideal solution for a range of settings, from medical centres to hospitals, from massage clinics to physiotherapists.

## SPAS & BEAUTY CENTRES

Celtex couch rolls are the smart choice for wellness and wellbeing facilities, including spas and beauty centres. The special patented **SATIN® embossing** is **delicate and soft** in contact with skin, making every treatment more enjoyable while enhancing the paper in look and feel.

The Celtex-exclusive **flow-pack** optimally **protects each roll from external contamination**.

The **CE marking on Celtex couch rolls certifies correspondence with the essential requirements set out in Appendix 1 of EU Regulation 745/2017**, i.e. compliance with the instructions and general requirements for safety and fulfillment of said regulation. Class I medical device, non-sterile, for single use.

**ULTRA LIGHT  
ECO-FRIENDLY CORE:**

Celtex couch rolls **cardboard cores** are exceptionally flexible. Once paper sheets are used up, the core **can be folded for easy waste sorting and disposal.**

Easy product dispensing through systems that ensure maximum hygiene and furnish with style.

# CELTEX DISPENSERS: COMBINING HYGIENE, DESIGN AND INNOVATION

---

**Celtex offers a comprehensive range of dispensing solutions, non-captive or systems.** Featuring **distinctive design, quality materials and smart, efficient functionality**, they add a touch of elegance to venues looking for that **perfect combination** of function and form.

---

## MEETING THE DEMANDS OF SPECIFIC SECTORS AND SITUATIONS

A wide range featuring **targeted solutions for every context**, from **high-traffic to high-end**.

**MEGAMINI**

  
**UBIMAIOR**

Made from ABS, the **Celtex Megamini** line offers flexible, high-performance products that deliver **hygiene**, reduced waste and **Made in Italy design**.

The Celtex **Ubi Maior** range of **high-end accessories** is made from high-quality materials such as Carrara marble and stainless steel, for a look that exudes timeless elegance.

## E-Control No-Touch hand towel roll dispenser

 C95430

 C95410

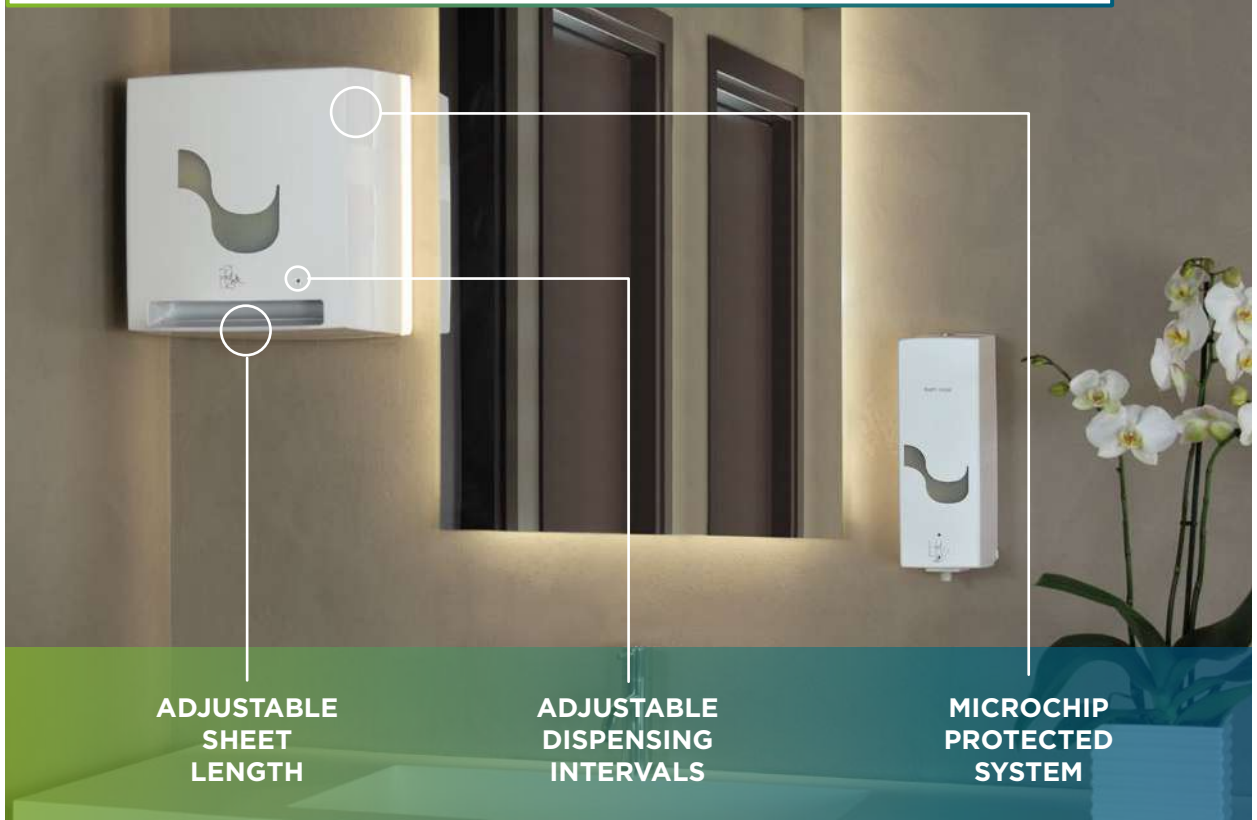

325 mm

347 mm

214 mm

The **stub roll** mechanism ensures there is always paper available. When a hand towel roll has almost run out, it is transferred to a secondary casing and continues to be used. A new, full roll is placed in the main compartment on standby until the first roll is completely used, meaning not a single sheet of paper is wasted.

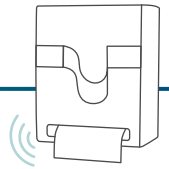

ADJUSTABLE  
SHEET  
LENGTH

ADJUSTABLE  
DISPENSING  
INTERVALS

MICROCHIP  
PROTECTED  
SYSTEM

With E-Control dispensers you can **customise functions** to find the best solution for different usage levels and traffic:

- adjust the sheet length of each **sheet from 15 to 80 cm**,
- select the interval between sheets dispensed from **a range of 0.5 to 5 seconds**.

#### DUAL CHARGER

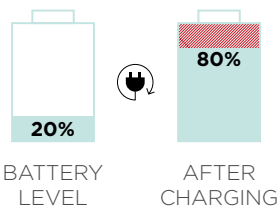

#### STICK BATTERY for PAPER TOWEL dispensers

UP TO  
**25,000**  
DISPENSING  
ACTIONS

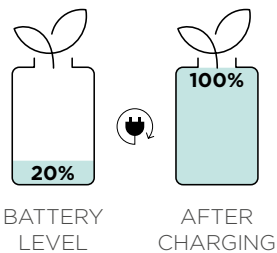

#### NO MEMORY EFFECT

To maintain initial performance, other batteries need to be drained completely before being recharged but this is not the case with E-Control as **it does not suffer from the so-called "memory effect"**. This means that it will **always retain maximum capacity** so there is no need to wait until it gets to zero before charging.

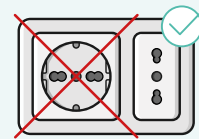

A STANDARD BATTERY WITH 20% REMAINING CAPACITY WILL ONLY RETURN TO 80% OF ITS POTENTIAL CAPACITY WHEN IT'S CHARGED.

VS

AN E-CONTROL BATTERY WITH 20% REMAINING CAPACITY WILL RETURN TO 100% OF ITS POTENTIAL CAPACITY WHEN IT'S CHARGED.

#### LOW ON ENERGY CONSUMPTION

Due to its **low energy consumption**, the battery charger comes with a **classic two-pin plug** rather than the standard version used on large appliances.

#### RECHARGE WHENEVER POSSIBLE

To ensure optimal performance and prolong battery life, it is important to **avoid deep discharge** by regularly recharging, whenever possible.

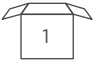

Watch the video to learn more.

**E-Control No-Touch soap dispenser**

 **C95520**

 **C95500**

**E-Control Hy Foam soap**

**C89080N**

- ▶ Soft, voluminous foam that is hygienic and pleasantly soft on the skin.
- ▶ A special formulation means less rinsing is required, resulting in less water used and a positive impact on the environment.
- ▶ Single-use refill for reduced cross-contamination.
- ▶ Enriched with vegetable glycerine.
- ▶ Dispenses 2 consecutive doses each of 0.4 ml (0.8 ml total).

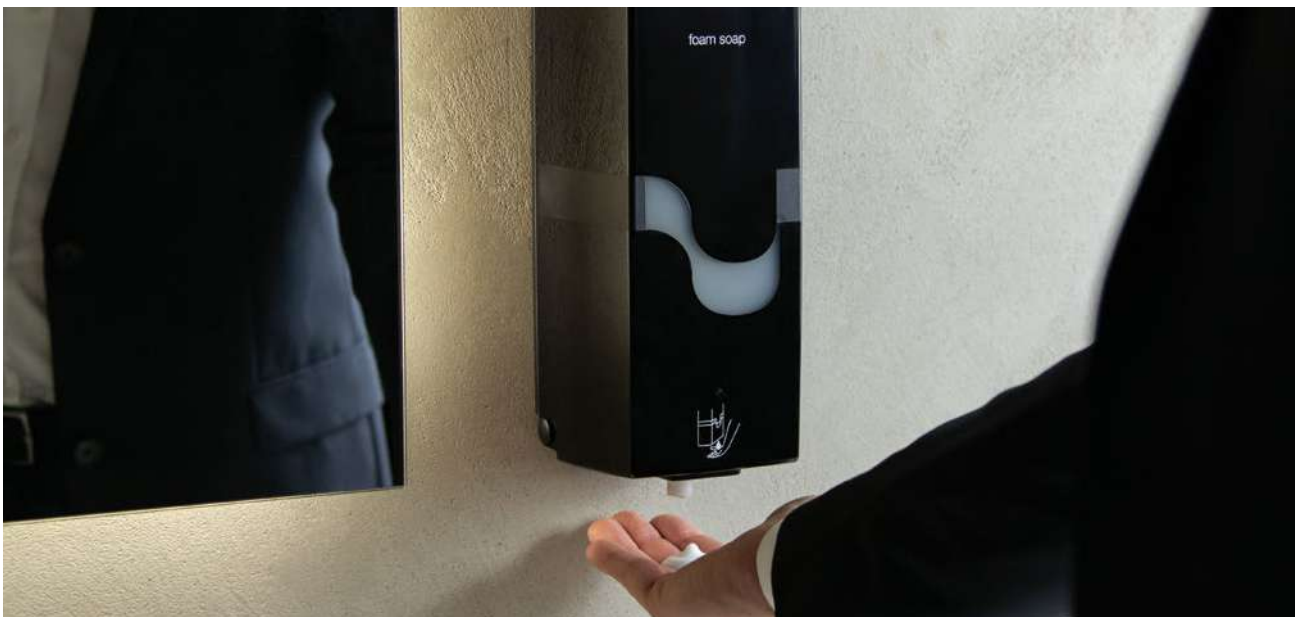

**E-Control Microbar Foam soap**

**C89100**

- ▶ Foam soap with antimicrobial additives for greater hygiene.
- ▶ Contains glycerine, making it delicate on the skin.
- ▶ Formulated with thyme and rosemary, each containing natural antimicrobial properties.
- ▶ Ideal for premises required to comply with HACCP standards.

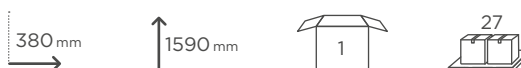

### E-Control No-Touch hydroalcoholic hand gel dispenser

### Stand for E-Control No-Touch hydroalcoholic hand gel dispenser

Combining a white Carrara marble base with pole and accessories in stainless steel, this is a practical addition to any public space or venue, particularly if aesthetics is also important.

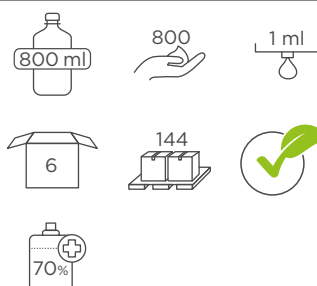

- ▶ Comes with an A4 snap frame for inserting promotional messages or other information.
- ▶ A drip tray ensures the immediate surroundings are kept clean and tidy.
- ▶ Made in Italy. Suitable for indoor and outdoor use.

### E-Control hydroalcoholic hand gel

C89060

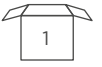

- ▶ Formula with alcohol base >70% v/v.
- ▶ Includes no chlorine derivatives. Base contains a vegetable gelling agent derived from cellulose and natural ethanol, obtained from fermented European beet and wheat (GMO-free).
- ▶ Enriched with essential oil from lemon skin extract.
- ▶ Reduces the risk of cross-contamination while respecting the skin.

**E-Control No-Touch toilet seats and surfaces cleaner dispenser**

 **C95590**

 **C95580**

**E-Control detergent for toilet seats and surfaces**

**C89070N**

- ▶ Toilet seats and surfaces detergent. Prevents cross-contamination and ensures a hygienic experience for every user.
- ▶ Formula with alcohol base >70% v/v.
- ▶ Enhanced with Ceylon cinnamon extract and essential lemon oil.
- ▶ Will not harm skin if it comes into contact. Suitable for sensitive users such as children, the elderly and people with disabilities.

 MARBLE AND STAINLESS STEEL **K92950**

Combining a white Carrara marble base with pole and accessories in stainless steel, this is a practical addition to any public space or venue, particularly if aesthetics is also important.

- ▶ Comes with an A4 snap frame for inserting promotional messages or other information.
- ▶ A drip tray ensures the immediate surroundings are kept clean and tidy.
- ▶ Made in Italy. Suitable for indoor and outdoor use.

## Hy Foam Soap

**C88090**

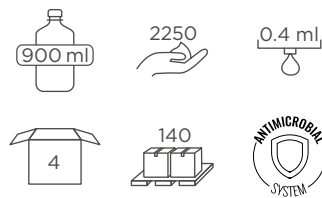

- ▶ Dispenses a soft foam soap.
- ▶ Sealed single-use cartridges for maximum hygiene.
- ▶ Auto-collapsing cartridge: as the product is consumed, the cartridge collapses, meaning less rubbish to dispose of.
- ▶ Less rinsing required, meaning reduced water consumption.

## Microbar Foam Soap

**C88100**

- ▶ Foam soap with antimicrobial additives. Delicate on the skin and suitable for frequent usage.
- ▶ Sealed single-use cartridges and built-in pump for maximum hygiene.
- ▶ A special formulation means less rinsing is required, resulting in less water used and a positive impact on the environment.
- ▶ Auto-collapsing cartridge: as the product is consumed, the cartridge collapses, meaning less rubbish to dispose of.

### Hydroalcoholic hand gel

C88050

- ▶ Includes no chlorine derivatives, making it good for the skin and the environment.
- ▶ Base contains a vegetable gelling agent derived from cellulose and natural ethanol, obtained from fermented European beet and wheat (GMO-free).
- ▶ Dermatologically tested, delicate on the skin.

# OMNIALABOR

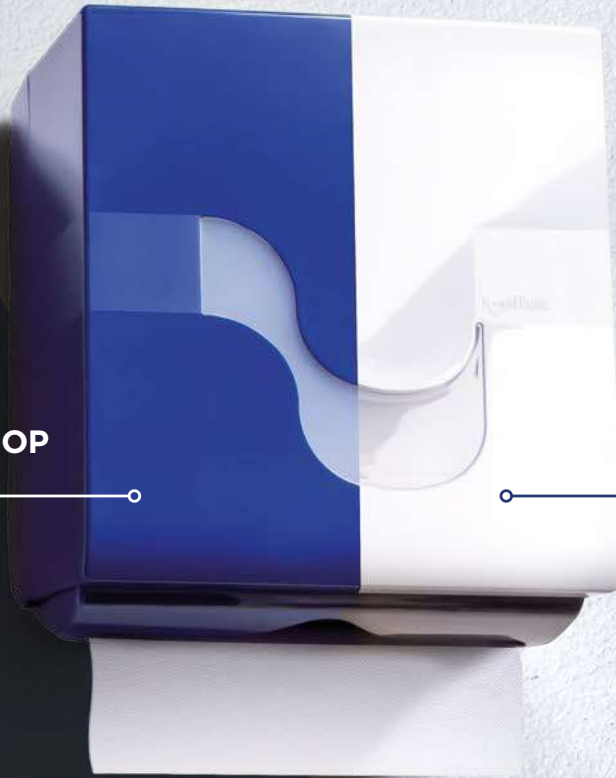

SAY FAREWELL TO TRADITIONAL ROLLS  
AND WELCOME THE BENEFITS OF FOLDED PAPER

PRACTICAL  
AND VERSATILE  
IN THE WORKSHOP

HYGIENIC  
AND HANDY  
IN THE KITCHEN

Easy to use

Smarter consumption

Superior hygiene

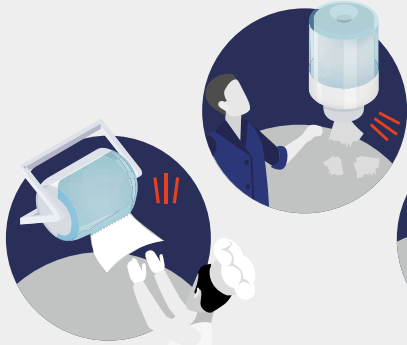

Space saving

# TIRED OF THOSE LITTLE HICCUPS THAT INTERRUPT YOUR WORK FLOW?

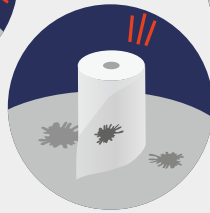

Twisted paper slowing you down?

Running out of paper at the wrong moment?

Excess wads of paper?

Paper stuck in the dispenser?

Loose paper?

Space-hogging dispensers?

## OMNIA LABOR - WHITE

Perfect in kitchens

Omnia Labor is a must-have for professional kitchens and catering situations. The versatile dispenser can be wall-mounted to free up horizontal working surfaces or can be attached to a sturdy, lightweight stainless steel stand with a handle, allowing you to move it around as required so that you always have paper at hand. One sheet at a time is extracted from a feeder that has been treated with a special **antimicrobial formula**, ensuring protection from the risk of cross-contamination until usage, and **compliance with HACCP standards**.

## OMNIA LABOR - BLUE

Ideal for workshops and garages

Working environments such as workshops and garages need to be orderly and set up to optimise time and space.

**Omnia Labor** dispensers can either be **fixed to the wall or moved around** and placed where you are working at any given time. Not only does this **save energy and time** going from one part of the space to another, but also reduces the risk of slipping on oily floors or tripping over obstacles.

### AN EVOLUTION IN FOLDED PAPER DISPENSING

Whether dispensing folded paper towels or sheets of toilet paper, the Megamini range makes **extraction smooth and fluid, every time.** With standard dispensers, the weight of a full load makes it more difficult to remove the first sheets, but with Megamini, every sheet comes out with just a gentle tug, meaning **less waste and mess caused by ripped paper or wads of unnecessary sheets.**

A pair of internal adapting arms reduce the width of the feeder, so that **if towels less than 22 cm wide are placed in the dispenser, they will be held in place and dispensed normally.** This offers flexibility and minimises waste.

Maxi Jumbo toilet paper dispensers

Mini Jumbo toilet paper dispensers

Double folded toilet paper dispensers

LONGER INTERVALS BETWEEN REFILLS

The new Double dispenser **holds up to 1120 folded sheets of toilet paper**, with an innovative design that not only makes extraction easier, but also means **longer intervals between refills and less time spent on topping it up.**

## EMBOSSING

# CELTEX EMBOSSING

Industrie Celtax has developed a range of patented embossed textures that add an extra level of absorbency, resistance and softness to the brand products.

From elegant, soft patterns to eye-pleasingly symmetrical designs, Celtax embossed motifs evoke the clean forms and timeless classic beauty of Ancient Greece.

## COTTON FLOWERS®

**Cotton Flowers®** features a motif inspired by the softness and purity of the cotton flower, which it depicts in two different flowering stages. The result is a dermatologically tested toilet paper that is as soft as tufts of cotton.

## SATIN®

**Satin®** embossing lends an incredibly tactile sensation to the paper, similar to that achieved by TAD (Through Air Drying), a technology that uses jets of hot air in the paper production process. Industrie Celtax special patented process results in paper that is resistant, flexible and delightfully soft.

**LEONIDA®**

**Leonida®** embossed paper absorbs liquids rapidly and has a pleasant feel that is similar to cloths made of fabric.

**ATHENA®**

The special structure of **Athena®** is designed to speed up absorption, meaning less wastage as fewer sheets of paper are required to dry hands thoroughly.

**BUTTON SATIN®**

**Button Satin®** is a new embossing, designed for paper towels. Its texture lends extra softness and fluffiness to products, making them more absorbent, resistant and ideal for everyday cleaning.
